Re: Elevator Protocol During Inclement Weather

APPROVED.....
BIG SIX TOWERS.

As most of you know, the practice during heavy rain and storms is to shut down access to the "B" elevator in each building. The "B" car is the one that goes to the basement. This is part of the precautionary measures that we take to minimize damage to the elevator from storm water and to ensure the safety of all.

We are forecasted to have quite a bit of rain over this weekend from the remnants of Hurricane Ian and we will be following this procedure as we have been in the past. Thus, please plan accordingly.

In addition, it is the responsibility of each shareholder with a storage space to check on their storage space and belongings following a storm. Please make sure to check on your spaces and belongings shortly following a heavy rainfall or storm.

In case of an emergency, please contact Public Safety at: (718) 335-8715.

Thank you!
