**Re: Hurricane Ida Update: BOILER & LAUNDRY ROOM MACHINE REPAIRS**

Dear Shareholders,

Please be advised that our temporary heating system is now operational. We started to test the system today and will be doing so throughout the weekend. You may hear intermittent banging noise, stemming from the testing. This should only be temporary.

With respect to several machines in the laundry rooms throughout Big Six Towers, Hercules is expected on site today to replace the washing machines.

We thank you for your cooperation and understanding as we diligently work to correct all the damages.

Sincerely,

Maria Platis, General Manager
