

# THEFT PREVENTION

## CATALYTIC CONVERTERS & AIRBAGS

Big Six Towers residents have been the subject of recent thefts of catalytic converters and airbags throughout the confines of the property. These thefts have occurred both within our parking lots and adjacent city streets.

Our Board of Directors, Management and Public Safety teams have been in touch with executive management of the 108<sup>th</sup> Precinct and are working closely to mitigate this uptick in criminal activity.

Please note, this criminal trend is an international trend affecting the entire globe.

Recently, Big Six Towers held a virtual crime prevention seminar with the 108<sup>th</sup> Precinct Crime Prevention Officer, P.O. Elidon Arber. This seminar focused on holiday scams and included the recent uptick in these type of larcenies.

We are encouraging residents to contact a reputable automobile mechanic and/or automobile security specialist to install physical protection for their catalytic converters and airbag systems.
